

## LEAVES FOR TEXAS TO CLAIM HIS BRIDE

ALEX JOHNSON WILL ENTER THE HOLY BONDS OF MATRIMONY THE LAST OF MONTH.

Alex. T. Johnson, the popular mining man of this city and formerly superintendent of the Jim Butler property, leaves this morning for Dallas, Texas, where on the twenty-eighth of this month he will claim the hand of Miss Marion Stanard, one of the most prominent young ladies of that city. After the ceremony and a short trip Mr. and Mrs. Johnson will return to this city and make their future home here.

## REPRESENTATIVE OF NEW POWDER COMPANY HERE

WILL INTEREST LOCAL MINING MEN IN THE CONCERN JUST LAUNCHED.

F. J. Moore, representing the California Powder works, arrived in this city last evening from Goldfield, where he has spent several days.

The California Powder works is a new concern that is preparing to build a plant at Antioch, California. They recently paid an enormous price for a block of ground and are now making the surveys for the various buildings. The company will be run something on the co-operative plan and it is for this purpose that Mr. Moore is visiting Nevada. It is the intention to interest the mine owners in the project and make them co-partners.

Mr. Moore will remain here for some time interviewing the various mining men and securing their views on the subject.

## ATTEMPT MADE TO FIRE VOLUNTEERS NEW GYMNASIUM

BLAZE OF AN INCENDIARY ORIGIN IS STARTED NEAR FIRE HOUSE.

Some persons, or persons, unknown, yesterday made an attempt to fire a frame building that is situated a few feet north of the volunteer gymnasium. A lighted broom was thrown under the building and but for the discovery by Lieutenant Garcia of the hook and ladder company, the flames would soon have gained a start that would have necessitated the calling upon every fireman in town to extinguish as a high wind was blowing at the time.

From appearances it looks as if the attempt was made with the intention of burning down the gymnasium, for the fire of several nights ago was also of an incendiary origin and was started next to the gymnasium. Chief Malley has several clues and is working quietly on the case.

## FATHER OF CLEVE BAKER DIES IN OAKLAND

GEORGE W. BAKER, LEADING WESTERN ATTORNEY, ANSWERS FINAL CALL.

Word was received in this city yesterday of the death of George W. Baker at his home in Oakland. Mr. Baker has long been prominently identified with the bar in the western states and particularly in Nevada and California. He recently successfully conducted the Pittsburg Silver Peak suit, which involved \$10,000,000 and was in litigation for twelve years.

His condition became serious last week and his son, District Attorney Cleve Baker, of this city, hastened to his bedside, arriving in Oakland Saturday morning.

### BAPTIST SOCIAL.

There will be a social at the Baptist church this evening and everybody is invited to attend. An excellent program will be rendered followed by a feast. A general good time is assured to all.

## PRODUCTION OF PIONEER LEASE IS \$7,500 PER DAY

Big Plant Opens on the Ore in Three Places --- 100 Tons Every Twenty-Four Hours.

(Special to the Bonanza.)

RHYOLITE, April 19.—Eighty-four tons of ore were sent out by the Pioneer lease yesterday. One hundred tons should be landed today and so on the capacity should continue until in thirty days the plans call for 200 tons in twenty-four hours.

The compressor and five drills were started up on last Wednesday. Since that time everything has gone well. Work is being pushed in three places, all of which is resulting in a good grade of shipping rock. Three more drills are ordered and will bring the equipment up to six small size and two big machines.

On the lower level the best ore is coming out. A stope has been installed in the crosscut of the lode here, and is being pushed up a width of six feet. Three samples taken from this width at random, yesterday, returned \$98.40, \$117 and \$120 respectively per ton. This material breaks down around \$100 to the

ton. A drift along the lode on this same level is well in toward the middle of the vein. It is going in on a big angle and makes but little progress across the formation. The face here is of ore that assays about \$25 per ton. This rock is good enough to ship.

The level above is now under steady development, through the winze connection. Thirty-three feet of ore is exposed here for a length of 80 feet. The drift is continuing north, and shows little change. Everything on this level for the above width and to the length as opened up will average over \$50 to the ton.

Al McPherson is en route from Bishop, California, with a string of draft horses for use in the service of this company. He is to be prepared to handle 200 tons before another month is passed. The lease is in shape now to keep pace with all available teaming facilities.

## AGED PIONEER PASSES TO THAT GREAT BEYOND

MRS. SARAH MATILDA BEATON ANSWERS FINAL CALL LAST EVENING.

Last evening at 6 o'clock, Mrs. Sarah Matilda Beaton, aged 76 years, answered the call of her Maker and passed to her final rest. She has been ailing for the past six months and several days ago the physicians gave up all hope.

Mrs. Beaton was a pioneer of Nevada, having resided in this state for thirty-four years, seven of which were spent in Tonopah. She was one of the early settlers in this state and one of the remaining few who crossed the plains in '49.

The aged lady has made her home in her declining years with her daughter, Mrs. E. A. Pomeroy, at whose residence she passed away. The funeral will be held this afternoon at 2 o'clock, the interment to be at the city cemetery.

She is survived by two daughters, Mrs. E. A. Pomeroy of this city and Mrs. Henry Kincaid of Bakersfield, California, and a sister, Mrs. Virginia Bents of St. Louis, Missouri.

### TEX RICKARD LEASE.

The Tex Rickard Leasing company at Pioneer is pushing work in two places, with drills. This shaft is down 130 feet or a little better. The material now in the bottom of the shaft is barren for the most part, with occasional streaks of mineralized rock.

In the lower tunnel, where the lode was cut some days ago, the stratification was shown up in good shape. The present work in the shaft is in a material similar to the strata that exists next to the lode in the original work. For this reason it is stated that the ore will be encountered within a few shifts in the shaft.

One drill has been put on the tunnel. Nothing of a sensational nature has been encountered here.

## DIVORCE CASE IS SUBMITTED FOR RULING

IT IS THOUGHT THAT DECISION WILL BE RENDERED IN A FEW DAYS.

The divorce case of Francis C. Moore vs. Lulu M. Moore was submitted for ruling yesterday afternoon in the district court. The case has attracted considerable attention owing to being heard behind closed doors. It is thought a ruling will be made within a few days.
